Dezeen promotion: furniture brand BD Barcelona Design and arts organisation Creative Dialogue have revealed plans to collaborate with five designers from the Gulf region, in a project that aims to celebrate Arab creativity.

BD Barcelona is partnering with design establishments in Saudi Arabia, the UAE, Kuwait, Qatar and Bahrain to create the PostCraft Collection. With help from Barcelona-based Creative Dialogue, the brand has enlisted a talented local designer from each of these locations, to create works that merge traditional Arab artisanal skills with contemporary aesthetics.
